

CAREERS ADVICE AND GUIDANCE FROM ACTIVATE CAREERS

Activate Careers provides impartial information, advice and guidance services, to help people make informed decisions about their future.

We are part of Activate Learning and also provide services to schools, colleges and other organisations beyond the group.

Our services are tailored to meet individual IAG needs and can help you meet statutory requirements as specified by the Department for Education (DfE).

From Jan 2018, the DfE issued schools' responsibilities for providing independent careers advice, with the following requirements for all students:

- Provide impartial and independent careers guidance
- Provide opportunities for visits from approved providers of technical qualifications and apprenticeships
- Use the Gatsby benchmarks to review careers provision.

These requirements now form part of the Ofsted common inspection framework, and providers will be judged on how well they meet their obligations.

Activate Careers is a Matrix-accredited organisation. All Activate Careers consultants are professionally qualified to Level 6 and provide independent advice. Each of them have their own area of focus, mapped to industry sectors - from technology and business to lifestyles and public services.

Find out more about our services overleaf.

1 August 2018 - 31 July 2019 costs
