5. Definitions

- 5.1. **Assessment** is a generic term for a set of processes that measure the outcomes of students' learning, in terms of knowledge acquired, understanding developed, and skills gained. It serves many purposes. Assessment provides the means by which students are graded, passed, failed or referred. It provides the basis for decisions on whether a student is ready to proceed, to qualify for an award or to demonstrate competence to practise. It enables students to obtain feedback on their learning and helps them improve their performance. It enables staff to evaluate the effectiveness of their teaching.
- 5.2. **Verification** is a generic term for a set of processes that ensure the quality of all internal assessment in a framework that is scrutinised by external awarding organisations. The purpose of internal verification is to appraise and support assessment delivery to ensure that it is valid, reliable, fair, consistent and meets with awarding organisation standards.

6. Commitment Statement

- 6.1. Activate Learning will have effective procedures for the consistent implementation of rigorous assessment practices which ensure that the academic/professional standard for each award and award element is set and maintained at the appropriate level and that student performance is properly judged against this. Through explicit implementation of our Learning Philosophy, we place high quality assessment and verification at the heart of what do offer, ensuring that:

- Every learner has the opportunity to practice effectively and receives timely feedback before any planned assessment activity.
- Every learner understands the timescale and purpose behind different assessment and verification activities and, therefore, knows how they can maximise their opportunities to succeed.
- Every learner can use planned formative assessment opportunities to 'fail safely' in order to maximise their learning and thoroughly prepare for summative assessment tasks.

In addition:

- 6.2. The principles, procedures and processes of all assessments will be explicit, valid, and reliable. Students will have access to clear criteria for the marking and grading of assessments.
- 6.3. Activate Learning will have effective arrangements for diagnosing and supporting students in the development of the skills required for assessment.
- 6.4. Activate Learning will have effective mechanisms to deal with breaches of assessment regulations, and the resolution of appeals against assessment decisions.
- 6.5. Activate Learning will ensure that assessment is conducted with rigour and fairness and with due regard for security.
- 6.6. Activate Learning, through its faculty areas, will ensure that the scheduling and volume of assessment is consistent with an effective and appropriate measurement of the achievement by students of the intended learning outcomes and effectively supports learning.
- 6.7. Activate Learning will ensure that there are robust mechanisms for assessment and internal verification and for the standardisation or moderation of marks or grades, and that assessment decisions are recorded and documented accurately and systematically.
- 6.8. Activate Learning will ensure that appropriate feedback is provided to students on assessed work in a way that promotes learning and facilitates improvement. In each term students will be given marked or graded feedback that enables their progress towards their qualification goals to be gauged.
- 6.9. Activate Learning will ensure that all staff involved in the assessment of students are competent to undertake their roles and responsibilities.
- 6.10. Assessment and examination policies, practices and procedures will provide students with additional needs with an equivalent opportunity to their peers to demonstrate the achievement of learning outcomes
