### Additional Guidance Notes

The Teaching Excellence Framework (TEF) expects course design, development, standards, and assessment to be “effective in stretching students to develop independence, knowledge, understanding and skills that reflect their full potential” (*criterion TQ3*). Panels should bear this in mind when considering whether the criteria for the approval of new programmes have been met.

#### 1. Consultation

The proposal should consider the outcomes of internal and external consultation and have engaged with an appropriate range of relevant reference points.

#### 2. Curriculum

The proposal should ensure that it:

- articulates an educational rationale, aims and intended learning outcomes which are appropriate to the level of the award, reflect the award title and show how the students' achievements will be reliably assessed. The intended learning outcomes for each exit award should also be articulated.
- is designed so as to enable the students to meet the programme aims and learning outcomes, i.e., it can be shown how individual modules contribute to the achievement of the programme outcomes.
  - demonstrates coherence and intellectual integrity.
  - is designed to ensure depth, breadth and balance of subject, intellectual, practical, and personal skills, including opportunities for students to acquire knowledge, skills and attributes that are valued by employers and thereby enhances the potential student's employability.
  - is designed to ensure relevant progression in terms of the demands placed upon students as the programme advances.
  - demonstrates a commitment to inclusive practice.
  - will be taught by a team of staff with appropriate qualifications, experience, and expertise.
  - supports the overall enhancement of the student experience.

#### 3. Recruitment and admissions

The proposal should ensure that the admissions criteria are consistent with the programme aims, learning outcomes and level of the award, taking account of the target market and the requirements of any PSRB requirements or relevant legislation. It should also consider how the programme team intends to assess applicants against the admissions criteria.

#### 4. Learning, teaching and assessment.

The proposal should ensure that the programme team's strategy for learning, teaching and assessment: provides effective stimulation, challenge and contact time that encourages students to engage and actively commit to their studies.

- is consistent with the stated aims of the programme, and that appropriate learning opportunities will be provided to enable students to meet the learning outcomes.
- validly and reliably assesses the achievement of all the programme's intended learning outcomes.
- ensures that assessment and feedback are used effectively to support students' development, progression, and attainment.
- reflects good practice in teaching and learning, with arrangements in place to assure and enhance the quality of teaching.
- provides accessible opportunities for all students, including, but not limited to, those with additional needs, to meet the learning outcomes.

#### 5. Programme management

The proposal should ensure that the programme management structures, including those concerned with academic and pastoral support for students, will meet the needs of all groups of students, including, but not

limited to, the provision of support for students with disabilities.

#### 6. Learning resources

The proposal should ensure that sufficient resources (including teaching staff with the appropriate expertise) are in place, or are planned, so that the programme team may provide learning opportunities which will enable students to achieve the programme learning outcomes. Systems should also be in place to provide reasonable adjustments for students with additional needs.

#### 7. For programmes delivered by distance (asynchronous), blended (combination of face-to-face and synchronous/asynchronous) or online (synchronous) learning.

The proposal must ensure that the proposal meets the expectations of Activate Learning in respect of the security and reliability of the delivery and assessment systems; assuring the quality of study materials; the skills and expertise of the staff delivering on the programme; and the mechanisms for providing timely academic support and feedback.
